

Mainframe Trends 2025: Actionable Insights from the User Survey

PLANET
MAINFRAME

Amanda Hendley

Amanda Hendley began her career in the technology industry more than 20 years ago as a Georgia Tech student looking for a marketing role—an opportunity that led her to the Technology Association of Georgia and ultimately shaped her professional path. Since then, she has focused on connecting technology professionals, supporting learning and career growth, and helping technical communities tell their stories.

Since 2023, Amanda has served as Managing Editor of Planet Mainframe, where she guides the publication's editorial direction and highlights the people, ideas, and innovations shaping the mainframe ecosystem.

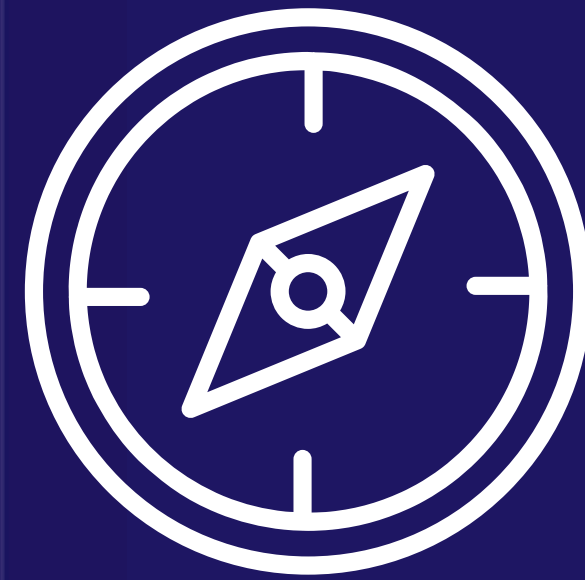

Planet Mainframe is a vendor-neutral online publication and community hub built for and by mainframe professionals. We cover expert insights, technical deep dives, and commentary across mainframes, hybrid infrastructure, AI, AIOps, DevOps, cloud integration, and enterprise modernization.

Mission: Educate, inform, and elevate the global mainframe community.
